Step by step guide

Choose "Parental controls" then tap "Get started".

Tap "Child or teenager".

Now time to link your child's Google account with your Google family group. If it's not the account list, add your child's Google account by choosing "Add or create account for your child" then tap "Next".

Review what you can and cannot do with Google Family Link with your child. Scroll to the bottom and enter the password of the child's account to continue. Tap "Agree", then tap "Allow supervision".

Galaxy S8+ Last used: 9 Apr 2021	
Parental controls, like time limits and app blocking, won't work on iF iPads and browsers, but you can always stop from signing in to unsupervised devices.

Install Google Family Link You can then install the Google Family Link app which gives your child a dashboard of what activity a parent can see. You can install Google Family Link from the Google Play Store on their device to further manage your child's account and access it remotely. More information on Google Family Link is available here.

Step by step guide

10

Enable Secret Mode Secret mode lets you browse in private without leaving any traces in your browsing history. Open Samsung Internet and tap the "Tabs" icon located either on the top or bottom of the display (depending on device screen size). Next, tap "Turn on Secret mode".

_

Step by step guide

Tap the toggle on "Lock Secret mode" button. Then enter a password – it must contain at least four character and one letter. Confirm the password again.
